

European University Sports Association

YEAR MAGAZINE
2007

WELCOME ADDRESS

After the first two years since its release, I'm glad to state the EUSA Magazine registered a significant interest of all our Members as well as people approaching EUSA for the first time.

This Magazine has undoubtedly drawn in all its aspects the attention of a large number of persons thanks to our decision to include in its pages our work, our policy but also our devotion to the University Sport field.

Therefore, it is clear that all our efforts to improve the communications of our Association are justified by the increase of the European Universities and students participation in our events. Among others, this work has granted to EUSA a new active position in FISU as Continental Association.

This is indeed a key establishment for our Association which marks a great change from the past and opens to EUSA an extraordinary new scenario in which it is one of the most involved Organization in the University Sport worldwide.

On behalf of the EUSA, it is with great pleasure that I witness such an effort coming from the

National University Sport Association's members who strongly contribute to the success of the high level sport events giving to all European students the opportunity to experience high level and friendly competitions as well as the chance to exchanging their culture and interests.

As we demonstrated so far, I am convinced that with the involvement, the commitment of each us, we can give a great contribution to the European University Sport and improve its image all over the world.

In this sense, we firmly believe that our Magazine together with the EUSA website is playing an important role spreading our intents and our activity plans.

To all our readers, a special thanks for the interest shown so far, hoping they will continue not only to use our Magazine but also to give us useful suggestions to improve our communication technique as they did in the previous years.

Best regards,

Alberto Gualtieri, President
