

European University Sports Association

YEAR MAGAZINE
2009

WELCOME ADDRESS

Ten years ago EUSA was born in Vienna, gathering 25 National University Sport Associations in Europe. In its 10th Year Anniversary celebration, on behalf of EUSA family and all our Members, I would like to tribute this issue to all of us and in particular to our former President Mr. Enno Harms who recently passed away.

It is also thanks to his dedication, devotion and commitment to the University sport field that EUSA is today one of the most active University Sport Associations. He was a distinguished President who contributed purposively to the cause of EUSA development. Thank you, Enno. I would like to invite all the persons involved in our Association to keep his spirit alive by promoting the ideas and the work which have marked EUSA since its foundation in 1999.

Once again, I am glad to report the improvements of our Association in terms of participation in our Championships and number of Members which have reached 42 affiliated countries, thanks to our common work and passion for the University Sport. We could only achieve these goals with the strong efforts of our Executive Committee Members, Technical Delegates, our staff and all our NUSA Members.

I believe we have been doing a great work in making EUSA the most competitive University Sport Association in our Continent which is at present not only the benchmark for all the European Uni-

versity Sport Organisations but also a reference point for the University Institutions worldwide.

As far as our activities are concerned, we enlarged the number of sports from 11 in 2008 to 15 in 2009, with 15 different Championships in which European students are enthusiastically taking part showing in some cases remarkable performances as a confirmation of the high quality level of play reached by our participants. This year, Golf, Taekwondo and Bridge were the new entries of our Championships' program since the birth of EUSA. Karate has been also inserted in our schedule with the 4th EUC of this sport.

Moreover, our Website has been recently updated and provides, among other, all the necessary information to our Members about the entire EUSA activity, offers regulations and championships entry forms, etc.

I would like to thank our readers in the interest demonstrated for our Magazine and in general for our overall activity. To them I would like to send my best wishes and my assurance that EUSA will keep working on its policy to develop the University Sport by strengthening the relations among the Universities in Europe in the name of sport, for the well being of our youth.

Best personal regards,

Alberto Gualtieri
President of EUSA
